

THE HERO FUND

The HERO FUND is a small group of committed **private donors and partners** who make it possible for Chive Charities to make the world 10% Happier. This group of instrumental donors cover our operating expenses — they fund the technology that allows our website to run, staff salaries, basic office systems and everything in between.

By committing multi-year support for operations funding, HERO FUND Members fuel our long-term mission.

The HERO FUND allows us to plan for the future. Members of our HERO FUND provide more than just financial support — they are also some of our most passionate ambassadors and visionary leaders.

While there is no maximum giving amount, we suggest one of the following giving levels:

\$5K

-

\$10K

-

\$15K

-

\$20K

-

\$50K

THE GOAL

By 2025, Chive Charities will adopt the 100% model. This means that every public donation made to Chive Charities will go directly to recipients in need. All operational costs will be covered by the HERO FUND. In 2019, 80% of public donations went directly to supporting our grant recipients. The goal is to increase that number to 100% by 2025.

We need visionary investors who believe in and support our mission. Our HERO FUND Members' ROI is measured in the amount of people whose lives are transformed by our grants, all thanks to their generous support of our work. Together since 2012, we've raised **\$13.6 million** for the underdogs, funding **357** grants, impacting the lives of **21,254** people in **42** states across the country. **51 million** have been inspired by our stories of courage and perseverance.
